TABLE OF CONTENTS

UNIT I: FUNDAMENTALS OF COMPUTING

1.1 Basics of Computer …….. 1

1.2 Characteristics of Computer ……. 1

1.3 Uses of Computers …….. 2

1.4 Types of Computers or Classification of Computers ……. 4

1.5 Basic Computer Organization ……... 6

1.6 Planning the Computer Program ……... 9

1.6.1 Algorithms ……... 9

1.6.2 The Characteristics of a Good Algorithm ……... 10

1.6.3 Building Blocks of Algorithm ……... 10

1.6.4 Control Flow …… 11

1.7 Notation of Algorithm …….. 12

1.7.1 Algorithm as Step-Form ……... 12

1.7.2 Pseudocode ……... 14

1.7.3 Flowcharts …….. 15

1.7.4 Control Structures in Programming Languages …… 19

1.8 Python interpreter and interactive mode ……... 23

1.8.1 Interactive mode …….. 24

1.8.2 Script Mode ……. 26

1.8.3 Difference between Interactive mode and Script mode ……. 29

1.9 Python Keywords and Identifiers …….. 30

1.9.1 Keywords in Python …….. 31

1.9.2 Identifiers in Python …….. 34

1.9.3 Python Keywords and Identifiers Examples ……... 35

1.10 Arithmetic operation in python ……..……..... 37

1.10.1 Types of Arithmetic Operators in Python …….……. 38

1.11 Control flow statements …….…….……. 44

1.11.1 Conditional statements …….…….…… 45

1.11.2 Transfer statements …….…….…….……. 54

1.11.3 Iterative statements …….…….…….……. 57

UNIT II: FUNCTIONS

2.1 INTRODUCTION …….…….…….……..... 61

2.1.1 Defining a Function …….…….…….…….. 61

2.1.2 Python function declaration …….…….……... 62

2.2 Types of Functions in Python …….…….……... 63

2.3 Creating a function in Python …….…….…….. 63

2.4 Calling a Function …….…….…….……... 64

2.4.1 Calling a function of a module …….…….……... 65

2.5 Return statement …….…….…….……. 66

2.5.1 Explicit return Statements …….…….……. 66

2.5.2 Implicit return Statements …….…….……. 67

2.5.3 Returning vs Printing …….…….…… 69

2.5.4 Returning Multiple Values …….…….…… 70

2.5.5 Returning None Explicitly …….…….…… 72

2.5.6 Remembering the Return Value …….…….……. 73

2.5.7 Avoiding Complex Expressions …….…….…… 74

2.5.8 Returning Values vs Modifying Global …….…….. 75

2.5.9 Using return With Conditionals …….…….……. 77

2.6 Variable Scope and Lifetime in python …….…….…… 83

2.6.1 Variable Scope and Lifetime in Python …….. 85
2.6.2 Types of Scope of Variables in Python ……... 85
2.7 Default arguments ……... 88
2.7.1 Using mutable objects as default argument values in python …… 91
2.8 Function arguments ……. 93
2.8.1 Default arguments ……. 94
2.8.2 Keyword Arguments ……. 96
2.8.3 Positional Arguments ……. 97
2.8.4 Variable-length arguments ……. 98
2.9 Strings ……. 100
2.9.1 Creating Strings ……. 101
2.9.2 Accessing Python String Characters ……. 102
2.9.3 Updating or Deleting a String in Python ……... 103
2.9.4 Accessing Values in Strings ……. 104
2.9.5 String Special Operators ……... 104
2.9.6 Escape Characters ……. 105
2.9.7 Python String Length ……... 107
2.9.8 Methods of Python String ……. 108
2.9.9 Reversing a Python String ……. 111
2.9.10 String slicing ……..... 113
2.9.11 Advantages of String in Python ……... 116
2.9.12 Drawbacks of String in Python …….. 116

UNIT III: PYTHON

3.1 Python Lists ……. 117
3.1.1 How to Create a List in Python …….. 117

3.1.2 Accessing elements in Lists ……... 119
3.1.3 Accessing Values in Lists ……. 120
3.1.4 Updating Lists ……. 123
3.1.5 Delete List Elements ……. 125
3.1.6 Negative indexing ……. 129
3.1.7 Slicing of a List ……. 129
3.1.8 Basic List Operations ……. 131
3.1.9 Built-in functions with List ……... 135
3.2 Tuples ……. 136
3.2.1 Features of Python Tuple ……. 137
3.2.2 Creating of Tuple ……. 137
3.2.3 Deleting a Tuple ……... 142
3.2.4 Repetition Tuples in Python ……... 143
3.2.5 Tuple Methods ……. 144
3.2.6 Iterating through a tuple ……. 146
3.2.7 Changing a tuple ……... 147
3.2.8 Advantages of Tuples over Lists ……. 148
3.3 Python Dictionary ……... 149
3.3.1 Create a dictionary in Python ……. 149
3.3.2 Add Elements to a Python Dictionary ……. 150
3.3.3 Change Value of Dictionary …….. 151
3.3.4 Accessing Elements from Dictionary ……. 152
3.4 Selection sort ……... 152
3.4.1 Working of Selection Sort ……. 152
3.4.2 Selection Sort Algorithm …….. 153

3.4.3 Selection Sort Program using Python ……. 154
3.4.4 Time Complexity of Selection Sort ……... 156
3.5 Insertion sort ……... 156
3.5.1 Working of Insertion Sort ……. 157
3.6 Merge sort ……... 160
3.6.1 Divide and Conquer Strategy ……. 160
3.6.2 MergeSort Algorithm ……. 161
3.6.3 The merge Step of Merge Sort ……... 162

UNIT IV: CLASS AND OBJECTS IN PYTHON

4.1 Introduction ……. 165
4.1.1 Defining a class ……. 166
4.1.2 Class Objects ……. 166
4.1.3 Declaring Objects ……. 167
4.1.4 Declaring an object ……... 167
4.1.5 The self ……. 168
4.1.6 Create Multiple Objects of Python Class ……. 169
4.1.7 Python Methods ……... 170
4.1.8 Python built-in class functions ……... 170
4.1.9 Built-in class attributes ……. 171
4.2 Constructor ……. 172
4.2.1 Creating the constructor in python ……. 172
4.2.2 Python Non-Parameterized Constructor ……. 173
4.2.3 Python Parameterized Constructor ……. 173
4.2.4 Python Default Constructor ……... 174
4.2.5 More than One Constructor in Single class ……. 175

4.3 Class and Instance Attributes in Python ……..……..... 175

4.3.1 Class ……..……..……..……..……. 175

4.3.2 Class and Instance Attributes in Python ……..……. 177

4.4 Encapsulation in Python ……..……..……..... 179

4.4.1 Protected members ……..……..……..…… 179

4.4.2 Private members ……..……..……..……..... 181

4.5 Polymorphism ……..……..……..……..……. 182

4.5.1 Function Polymorphism in Python ……..……..…… 183

4.5.2 Class Polymorphism in Python ……..……..…….. 184

4.6 Inheritance ……..……..……..……..……..... 185

4.7 Polymorphism and Inheritance ……..……..……..…… 186

4.8 Functional Programming ……..……..……..…….. 187

4.8.1 Python Lambda ……..……..……..…… 188

4.8.2 Python Iterators ……..……..……..……. 193

4.8.3 Python Generators ……..……..……..……. 194

UNIT V: Python - GUI Programming (Tkinter)

5.1 Introduction ……..……..……..……..……. 199

5.1.1 Tkinter Programming ……..……..……..…… 199

5.1.2 Tkinter Alternatives ……..……..……..…….. 201

5.1.3 Getting started ……..……..……..……..…….. 202

5.1.4 Tkinter Widgets …… 203

5.2 Python with SQL Database ……..……..……..…….. 208

5.3 Commit & RollBack Operation in Python ……..…… 214

5.3.1. The commit() method ……..……..……..…….. 214

5.3.2. The rollback() method ……..……..……..…….. 216

5.4 Network Programming ……. 217

5.4.1 What is Sockets? ……. 217

5.4.2 The socket Module ……. 219

5.4.3 A Simple Server ……. 221

5.4.4 A Simple Client ……. 222
