About the Authors

Prakash Ranjan Deen is working as an Assistant Professor in the Department of Physics at Purnea College, Purnea (Bihar) and presently deputed in P. G. Department of Physics – Purnea University, Purnea (Bihar), India. He secured Master in Condensed Matter Physics from University Department of Physics, Ranchi University, Ranchi, Jharkhand, India. He is in teaching profession for more than five years. He has published one research paper in International Journal and one in National Journal. His main area of interest includes quantum mechanics, atomic and molecular physics and condensed matter physics.

Dr. Usha Rani B working as an Assistant Professor in the ECE Department at AMC Engineering College, 18th K.M. Bannerghatta Main Road, Bangalore. She graduated in Engineering at SJMIT Engineering College, Chitradurga, Karnataka, India. She secured Master of Engineering in Digital Electronics and Communication, E and C Department at AMC Engineering College, Bangalore, Karnataka, India. She got awarded Doctoral Degree, in Electronics and Communication Department at Visvesvaraya Technological University (VTU) Belagavi, Karnataka, India. She is in the field of Wireless Communication, at AMC Engineering College, Bangalore, Karnataka, India. She is in teaching profession for more than 7 years. She has presented 10 papers in National and International Journals and Conferences. Hers main area of interest includes Wireless Communication and VANET's.

Dr. R. Saravanan working as an Assistant Professor in the Department of Electronics and Communication Engineering at PSNA College of Engineering and Technology, Dindigul. He graduated in B.E – Electrical and Electronics Engineering at JJ College of Engineering and Technology, Trichy, Tamil Nadu India. He secured Master of Engineering in Power Electronics and Drives at PSNA College of Engineering and Technology, Dindigul. He secured Ph.D., in Department of Electrical Engineering at Anna University, Chennai, Tamil Nadu, India. He is in the field of Electromagnetics, Signal Processing, Transmission Lines at PSNA College of Engineering and Technology, Dindigul. He is in teaching profession for more than 12 years. He has presented more than 15 papers in National and International Journals, Conference and Symposiums. His main area of interest includes Electromagnetics, Signal Processing, Circuit Analysis, Embedded Systems and Transmission Lines.

Dr. Boddepalli Rajani received M.E., (Power systems and Automation) degree from Andhra university, Visakhapatnam. She has received Ph.D., (Electrical and Electronics Engineering) degree from S.V University College of Engineering, Tirupathi. She has completed her Ph.D., with project title related to: "Performance Analysis of Multi converter – Unified power Quality Conditioner using Artificial intelligence". Her interest towards computer subjects lead to be an one of the author for this book. She is presently working as Professor in Aditya college of Engineering & Technology, Surampalem, ADB Road, East Godavari Dist, A.P. She involved in research & teaching B.Tech., and M.Tech., students and has more than 16 years of teaching experience. Reviewed papers for International Journal of engineering Research & technology (IJERT), She is a judge for various paper and poster presentation at national level technical symposium .She rewarding as a Committee Member in "ICEATE-2020" Conference, Pallavi Engineering College, Hyderabad. She is mentor for successfully completing the online training programme under national Initiative for Technical Teacher Training (NITTTR Chennai) given by AICTE New Delhi. She has given guest lecture in various institutions. To her credit she has totally 37 national and international Journals. She attended and organized many conferences, seminars and workshops, STTPs, FDP and Symposia. She published 5 Patents out of which one is granted ,3 book chapters. She is a life time member of Internet society member, IRED, IAENG, ISTE, IEI (Institute of Engineers). She is an Academic Affairs co-ordinator, NBA coordinator, BOS Member, Academic Council Member, Department R & D coordinator in various colleges. Her research areas of interest are Artificial intelligence techniques, Smart grid techniques, Electrical vehicles.
